

REHEVANE — Ending Guide

Acts I–III complete saga · 11 finale endings + 3 Act I variants. There is **no ending picker** — thy play decides thy fate, and the finale merely reveals it. Watch it live in ESC → 🏰 King's Decree.

1 · How endings are decided (the fate ladder)

Score = bond – jealousy per heroine. The ladder is read top to bottom; the first rung that holds is thy fate:

Rung	Rule	Ending
1 · Household	All six met, all bonds ≥ 6, total jealousy ≤ 10	All Six
2 · Devotion	Top score ≥ 14 and leads second by ≥ 6	Her solo
3 · True pair	Top two are a true pair (Ruby+Nyx, Rosalind+Belladonna, Minerva+Daisy), within 5, both bonds ≥ 8	Their pair
4 · Truest heart	Top score ≥ 8	Top solo
5 · Solitude	Otherwise	Alone (Warden's Road)

So: pour everything into one girl → devotion solo. Raise a true pair above the rest → pair. Balance all six and keep jealousy cool → harem. Rush through → alone. Jealous fury drags score down — a furious love cannot win.

Act I also has 3 variants (devoted / hasty / open) from thy Oath conduct. Epilogue households gain **1–4 children, random genders** (boys-only, girls-only, or mixed) — except Alone.

2 · Raising favor (bonds) — every axis caps at 8

Method	Gain	Cost / limit
Story scenes (dialogue choices)	+2 to +8 per scene	Once each — always pick sincerely
Talk (Relationships menu)	+1 closeness	Once per girl per day
Gifts (Moonpetal / Silver Comb)	+2 affection (flower) / +1 aff +2 close (comb)	Costs the item
Dates (Relationships menu)	Random every evening: +1–3 affection, +1–3 closeness, +0–2 trust/respect/loyalty (shown openly); scene varies (3 openings each)	20g + one evening, once per girl per day
Rivalry scenes (below)	+3 to +5	Needs her jealousy high first
🔗 Vow (Relationships menu, bond 20+)	One-time devotion scene; two gauges rise past 8 unto 10	Once per girl — the only road to max

3 · Jealousy — the anime rules

- **Grand favor** (+2 affection at once: gifts, dates, big scenes) for one girl gives **+1 jealousy to every other girl who already cares** — **+2 to Belladonna**. Small talk never stings.
- At **3+ jealousy (Belladonna 2+)** she **acts**: speak with her and she launches a favor-contest scene (spar, interrogation, summons, race, study, cake-off) to win thee back. Winning resets her to 0 — but some other girl saw it (+1 drama).
- **Dates** reset HER jealousy to 0.
- **Quiet days cool all hearts –1** (rest at the inn, let time pass). Neglect cools; lavish favor heats.
- Locked out of a path? The ladder reads score = bond – jealousy: cool her fury (rest, date her, answer her rivalry) or raise her bond, and watch the Decree move.

4 • Efficient path to all endings

1. Play Acts I–III sincerely (kind/brave answers). Story alone carries every bond to ~7–15.
2. Talk daily (+1 each), gift spare Moonpetals, date the most jealous girl each evening.
3. Answer rivalry scenes — they pay bonds AND reset jealousy.
4. Before the Depths: rest 2–4 quiet days until every jealousy ≤ 3 and total ≤ 12 .
5. Slay the Core, approach the Altar — no menu appears. Thy mornings speak: the threads route thee to the earned ending. Check ESC → 👑 King's Decree beforehand to see exactly where thou standest.
6. For ONE true love: lavish her (dates, gifts, scenes, her Vow) and let the rest cool — devotion needs a lead of 6.

5 • The heroines (names carry meaning)

Name	Meaning	She is	Past
Rosalind	“pretty rose”	Pink-haired elf Guard-Captain, tsundere	Dark: held the door at twelve while her mother died trusting a human
Belladonna	“beautiful lady” + nightshade	Dark-haired knight, devoted edge	Dark: orphaned squire; her first charge died; love is proof she exists
Ruby	red fire-gem	Platinum crowned dragon princess, himedere	Wholesome: never loved as a person, only a title; dreams one sunrise, crownless
Nyx	Greek “night”	Wolf-eared plains huntress, teasing edge	Cute (dark edge): collar-child who chose her own pack — loudly
Minerva	Roman wisdom	Silver scholar-witch, quiet kuudere	Wholesome: lonely tower; wants to be seen clearly and leaned upon
Daisy	“day’s eye” flower	Golden sunshine saint, deredere	Wholesome (dark core): bears every prayer smiling; wants one ordinary morning

Rin speaks modern words; Rehevane natives speak old words (thou/thee/thy). Guide matches game version with dates, rivalry, the fate ladder, the King's Decree and 13 areas.
